

EHC GLOBAL

Web Site Accessibility Plan

Currently our domain is compliant with WCAG 2.0 Level A accessibility standards.

We recognize that our existing web site provides features which may limit its accessibility to the disabled. We intend that <http://www.ehc-global.com> website will be fully compliant with WCAG 2.0 Level AA accessibility standards by January 1, 2021.

For the interim, we have made available a [PDF document](#) which contains all the static content of our website in a simplified format for easier reference and navigation. Our on-line searchable catalog requires the ability to use a mouse effectively and is not included with our accessible PDF document. If you would like more information on our products, or a custom PDF extract from our on-line catalogue, please contact our sales dept.

As with all our PDF downloads, you may request an alternate format by contacting our Sales Dept. at:

wr-sales@ehc-global.com

Should you have any questions, comments or feedback, please contact any of our representatives or offices listed on our Contact page.
